

Montebello Packaging Inc.  
Lebanon, Kentucky

## **EXECUTIVE SUMMARY**

### **SOURCE DESCRIPTION:**

Montebello makes flexible aluminum tubes for pharmaceuticals and toothpaste. Aluminum disks are extruded to form tubes. Coatings are applied inside and outside. Inside coatings are sprayed, outside coatings are applied by roll coating. Coatings are solvent based.

On March 31, 2005 the source has applied to the Division for Air Quality for the renewal of their conditional major permit F-00-012 (Revision 1). Since the last permit modification dated April 16, 2003 there has been

- a. No changes in process output
- b. No deleted equipment
- c. No changes in equipments
- d. No changes to process rates

The source requested permit limits of less than 90 tons per year of volatile organic compounds (VOC), 9.0 tons per year of individual hazardous air pollutants (HAP), and 22.5 tons per year of combined HAPs to preclude the applicability of Title V.

### **PUBLIC,AND U.S. EPA REVIEW:**

The U.S. EPA was notified of the issuance of the draft permit on November 12, 2005 via e-mail. On December 7, 2005 the public notice on availability of the draft permit and supporting material for comments by persons affected by the plant was published in The Lebanon Enterprise in Lebanon, Kentucky. The public comment period expired 30 days from the date of publication. No comments were received during this period. The permit is now being issued final.
